

NovaTech Solutions Inc.

Enterprise Q&A Knowledge Base

Version 4.2 | Fiscal Year 2024–2025

This document is the official internal Q&A reference for NovaTech Solutions Inc. It covers HR policies, IT support, finance, operations, legal compliance, product information, customer support procedures, and executive communications. Intended for use in enterprise knowledge management and RAG (Retrieval-Augmented Generation) systems.

Section 1: Company Overview & Culture

1.1 General Information

Q: What does NovaTech Solutions Inc. do?

A: NovaTech Solutions Inc. is a B2B enterprise software company headquartered in Austin, Texas. Founded in 2008, the company provides cloud-based ERP, CRM, and data-analytics platforms to mid-market and enterprise clients across manufacturing, retail, healthcare, and financial services sectors. As of 2024, NovaTech employs approximately 4,200 people across 18 global offices.

Q: Where are NovaTech's main offices located?

A: Global HQ: Austin, TX, USA. Regional offices: New York, Chicago, San Francisco, London (UK), Berlin (Germany), Singapore, Sydney (Australia), Toronto (Canada), Dubai (UAE), and Bengaluru (India). Engineering centers of excellence are located in Austin, Bengaluru, and Berlin.

Q: What is NovaTech's mission statement?

A: NovaTech's mission is: 'To empower enterprises with intelligent, scalable software solutions that transform data into competitive advantage.' The company's three core values are: Customer Obsession, Engineering Excellence, and Inclusive Innovation.

Q: What are NovaTech's primary product lines?

A: NovaTech offers four flagship product lines: (1) NovaCRM — a cloud CRM platform with AI-driven lead scoring; (2) NovaERP — a modular ERP suite covering finance, HR, supply chain, and manufacturing; (3) NovaBridge — an integration middleware platform for connecting third-party SaaS and on-prem systems; and (4) NovaInsights — a business intelligence and analytics platform powered by a proprietary ML engine.

Q: Is NovaTech publicly traded?

A: Yes. NovaTech Solutions Inc. (ticker: NVTC) has been listed on the NASDAQ since its IPO in March 2017. As of Q3 2024, the company's market capitalization is approximately \$6.8 billion.

1.2 Culture & Values

Q: What is NovaTech's approach to diversity, equity, and inclusion (DEI)?

A: NovaTech has a dedicated DEI Council chaired by the Chief People Officer. The company targets 40% representation of women in technical roles by 2026 and has published annual DEI transparency reports since 2020. Employee Resource Groups (ERGs) include NovaPride, NovaMujeres, NovaAbility, NovaVets, and the Black Excellence Network (BEN).

Q: Does NovaTech have a hybrid work policy?

A: Yes. NovaTech's Flexible Work Framework (FWF), introduced in 2022, allows most roles to work remotely 3 days per week. Employees in customer-facing or lab roles may have different arrangements approved by their manager. There are no mandatory office days company-wide, but teams set their own in-person collaboration cadence.

Q: How does NovaTech handle performance reviews?

A: Performance reviews are conducted twice annually — in June and December. The framework uses a 5-tier rating scale: Exceptional, Exceeds Expectations, Meets Expectations, Developing, and Underperforming. Ratings directly influence year-end bonuses and stock refresh grants. NovaTech also uses continuous feedback tools integrated into its own NovaCRM platform.

Q: What learning and development resources are available to employees?

A: Employees have access to NovaLearn, the internal LMS platform with 3,000+ courses. Each employee receives an annual \$2,500 Learning Stipend for external certifications, conferences, or courses. NovaTech partners with Coursera, Pluralsight, and LinkedIn Learning. The company also runs an annual internal conference called NovaSummit.

Section 2: Human Resources & Benefits

2.1 Onboarding

Q: What does the onboarding process look like for new hires?

A: New hire onboarding at NovaTech is a 30-60-90 day structured program. Week 1 is fully dedicated to orientation — equipment setup, system access provisioning, compliance training, and introductions to team leads. By Day 30, new hires should complete role-specific technical or functional training. By Day 60, they typically own a project or task area. By Day 90, they deliver a 'First 90 Days' presentation to their manager and HR Business Partner.

Q: When do new employees receive their laptop and equipment?

A: Equipment is shipped or made available for pickup on or before the employee's first day. Standard hardware bundles are: MacBook Pro 14" for engineering, MacBook Air 15" for non-technical roles, and Dell Latitude 5540 for Windows-preference users. Peripherals (monitor, keyboard, mouse, headset) are included. Requests for non-standard equipment must be submitted via the IT portal with manager approval.

Q: How do I set up my corporate email and access?

A: On Day 1, IT Operations will send a welcome email to your personal address with your NovaTech Google Workspace credentials. Log in at mail.novatech.com. Your SSO (Single Sign-On) through Okta will grant access to Slack, Jira, Confluence, Greenhouse, Workday, and most internal tools. For access to restricted systems (finance, legal, production databases), a separate access request must be submitted by your manager in ServiceNow.

2.2 Benefits

Q: What health insurance plans does NovaTech offer?

A: US employees can choose from three medical plans: NovaCare Basic (HDHP with HSA), NovaCare Plus (PPO, 80/20 co-insurance), and NovaCare Premium (PPO, 90/10 co-insurance). Dental and vision are offered through MetLife. NovaTech covers 85% of premiums for employees and 70% for dependents on the Plus and Premium plans. Open enrollment runs each October for coverage starting January 1.

Q: What is the parental leave policy?

A: Primary caregivers receive 20 weeks of fully paid parental leave. Secondary caregivers receive 8 weeks of fully paid leave. Adoption and surrogacy assistance is also available — NovaTech reimburses up to \$15,000 in eligible expenses. Leave may be taken any time within 12 months of the child's birth, adoption, or placement.

Q: Does NovaTech offer a 401(k) plan?

A: Yes. NovaTech matches 100% of the first 4% of salary contributed to the 401(k) plan, with immediate vesting. The plan is administered through Fidelity. Employees also have access to a Roth 401(k) option. Financial planning sessions with a Fidelity advisor are available at no cost twice per year.

Q: What wellness benefits are available?

A: NovaTech provides a \$1,200 annual Wellness Stipend usable for gym memberships, fitness equipment, mental health apps, meditation classes, or ergonomic office equipment. Employees also have access to 12 free therapy sessions per year through the EAP (Employee Assistance Program) administered by Lyra Health. Mental Health Days — 3 additional paid days per year — may be taken without requiring documentation.

Q: How much PTO do employees receive?

A: Employees accrue PTO at a rate depending on tenure: 0-2 years: 15 days/year; 3-5 years: 18 days/year; 6+ years: 22 days/year. There are also 11 company-wide holidays and 3 floating holidays. PTO is accrued

monthly and can be carried over up to 30 days. NovaTech also observes a company-wide 'Reset Week' — one week in late December where all offices are closed.

Q: Does NovaTech offer stock options or RSUs?

A: Yes. All full-time employees receive Restricted Stock Units (RSUs) as part of their total compensation. Standard grants vest over 4 years with a 1-year cliff (25% at 12 months, then monthly thereafter). Directors and above may receive additional performance-based RSU grants (PRSUs) tied to company revenue and gross margin targets. Equity details are managed through Carta.

2.3 Policies

Q: What is the process for reporting workplace harassment?

A: Employees can report concerns via three channels: (1) directly to their HR Business Partner, (2) anonymously via EthicsPoint (novatech.ethicspoint.com), or (3) by emailing the HR Investigations team at hr-investigations@novatech.com. All reports are investigated within 10 business days. Retaliation against reporters is a terminable offense. NovaTech's Anti-Harassment policy is reviewed and recertified by all employees annually.

Q: What is NovaTech's code of conduct?

A: NovaTech's Code of Conduct covers: conflicts of interest, confidentiality and IP protection, anti-bribery and corruption (FCPA/UK Bribery Act compliance), insider trading policy, use of company assets, data privacy, and social media guidelines. All employees must complete Code of Conduct training annually. Violations may result in disciplinary action up to and including termination.

Section 3: IT Support & Infrastructure

3.1 Help Desk & Ticketing

Q: How do I submit an IT support ticket?

A: IT support tickets are submitted via the ServiceNow portal at it.novatech.internal. For urgent issues (system outages, security incidents), call the IT Help Desk hotline at ext. 5000 or +1-800-668-2832. The SLA for P1 (Critical) tickets is 1 hour response, 4-hour resolution. P2 (High) is 4 hours / 8 hours. P3 (Medium) is 1 business day. P4 (Low) is 3 business days.

Q: What should I do if I suspect a phishing email?

A: Do not click any links or download attachments. Forward the email as an attachment to phishing@novatech.com, then delete it from your inbox. You can also use the 'Report Phishing' button in Gmail (installed via the NovaGuard Chrome extension). If you believe you clicked a malicious link, immediately disconnect from VPN and corporate Wi-Fi, then call the Security hotline at ext. 5911.

Q: How do I connect to the corporate VPN?

A: NovaTech uses Cisco AnyConnect for VPN. Download it from the Self-Service Portal at software.novatech.internal. Authenticate using your Okta credentials and the VPN profile 'NovaTech-Corp'. MFA via Okta Verify is required. The VPN must be connected whenever accessing internal tools, production systems, or Confluence spaces marked 'Internal Only'.

Q: What are the approved cloud storage and file sharing tools?

A: Approved tools: Google Drive (primary), SharePoint (for client-deliverable documents), and Box (for secure external file sharing). Employees must NOT use personal Dropbox, iCloud, or USB drives for company data. Files classified as Confidential or Restricted must be shared only within Google Drive with link-sharing disabled and access limited to specific individuals.

Q: How do I request software not available in the Self-Service Portal?

A: Submit a Software Request in ServiceNow under 'IT > Software Request'. Include the business justification, vendor website, cost, and whether a free trial is available. Requests are reviewed by IT Security (license and security vetting) and Finance (budget approval) within 5 business days. Procurement of software exceeding \$500/year requires VP-level approval.

3.2 Security & Compliance

Q: What is NovaTech's password policy?

A: All corporate passwords must be at least 16 characters, include uppercase, lowercase, numbers, and special characters, and not reuse the last 10 passwords. Passwords for privileged accounts (admin, root) must be changed every 90 days. NovaTech mandates the use of 1Password (company-licensed) as the password manager. Sharing passwords via email or Slack is a security policy violation.

Q: What data classification levels does NovaTech use?

A: NovaTech uses four data classification tiers: (1) Public — marketing materials, press releases; (2) Internal — standard business documents; (3) Confidential — financial data, employee records, customer PII; (4) Restricted — source code, M&A documents, cryptographic keys. Each tier has specific handling, storage, and sharing requirements defined in the Data Governance Policy (DGP-2024).

Q: Is NovaTech SOC 2 Type II certified?

A: Yes. NovaTech achieved SOC 2 Type II certification in 2019 and undergoes annual re-certification audits conducted by Deloitte. The scope covers the Trust Services Criteria of Security, Availability, and Confidentiality across all production infrastructure. Customers may request the audit report under NDA through their Account Executive.

Section 4: Finance & Accounting

4.1 Expenses & Reimbursements

Q: What is the process for submitting expense reports?

A: Expenses are submitted via Concur (accessible through Okta SSO). Receipts for all expenses over \$25 must be attached. Submit reports within 30 days of the expense date. Reports are reviewed by your manager and then by the Finance team. Approved reimbursements are processed in the next payroll cycle (typically within 7-10 business days). Late submissions (over 60 days) require VP Finance approval.

Q: What are the meal and entertainment expense limits?

A: Domestic meals (employee only): up to \$75/person/day without pre-approval. Client entertainment meals: up to \$150/person, requires business purpose and attendee names documented. Alcohol is reimbursable only as part of a client meal, with no specific cap, but must be reasonable. Annual team celebrations: up to \$100/person/event, pre-approved by department head. All international limits are governed by local country policies.

Q: What is the travel booking policy?

A: All business travel must be booked through Navan (formerly TripActions), the company's corporate travel platform. Economy class is required for flights under 6 hours. Business class is permitted for international flights over 6 hours or red-eye flights with an early-morning meeting. Hotel bookings should be under \$300/night in major US cities (higher limits apply for NYC, SF, Boston). Booking outside Navan requires Finance pre-approval and may not be reimbursed.

Q: Does NovaTech issue corporate credit cards?

A: Corporate credit cards (Brex Business Cards) are issued to Directors and above, and to employees with recurring business travel or vendor payment needs as approved by Finance. All cardholders must reconcile transactions weekly in Brex and attach receipts. Cardholders are personally liable for non-business expenses charged to the card.

4.2 Procurement & Vendor Management

Q: How do I onboard a new vendor?

A: New vendor onboarding starts in Coupa (vendor management system). The requestor submits vendor details; Procurement verifies insurance certificates, W-9/W-8BEN, and banking information. Legal reviews any Master Services Agreement (MSA). InfoSec conducts a Vendor Security Assessment (VSA) for vendors handling NovaTech data. The full process takes 10-15 business days. Engagements over \$50,000 annually require a signed NovaTech MSA, not just a vendor SOW.

Q: What is the contract signature authority matrix?

A: Contracts up to \$10,000: Manager-level approval. \$10,001-\$50,000: Director-level. \$50,001-\$250,000: VP-level. \$250,001-\$1,000,000: CFO approval. Over \$1,000,000: CFO + CEO. All contracts must be routed through Legal for review regardless of value. Only authorized signatories listed in the company's signature authority policy may execute agreements on behalf of NovaTech.

4.3 Payroll

Q: When is payroll processed?

A: US employees are paid bi-weekly on Fridays. The pay period runs Monday to Sunday, and paychecks reflect work completed two weeks prior. Payroll is processed through ADP. Direct deposit is mandatory for US employees; international employees are paid via local payroll providers on the local country pay schedule. Pay stubs are accessible in ADP Self Service.

Q: How do I update my direct deposit or tax withholding information?

A: Log in to ADP Self Service at adp.novatech.com. Navigate to 'Myself > Pay > Direct Deposit' to update banking details. To update W-4 withholding elections, go to 'Myself > Pay > Tax Withholding'. Changes must be submitted by the 10th of the month to take effect in the same month's payroll. For payroll-related questions, contact payroll@novatech.com.

Section 5: Legal & Compliance

5.1 Contracts & NDAs

Q: How do I request an NDA or customer contract?

A: Contract requests are submitted through the Legal Request Portal in ServiceNow. For NDAs, use the pre-approved NovaTech Mutual NDA template available in the Legal Templates SharePoint folder — these can be executed by Directors and above without Legal review if unmodified. Custom or redlined agreements must be reviewed by Legal. Standard contract turnaround is 3-5 business days; expedited review (1-2 days) is available for active deals with VP approval.

Q: Can I sign a vendor's standard contract terms?

A: Generally no. NovaTech's preferred approach is to use its own paper (MSA, SOW templates) or negotiate off the vendor's paper with Legal's review. Vendors' standard online click-through agreements (e.g., SaaS subscriptions under \$10,000/year) may be accepted by the department head. Any agreement that includes data processing, IP assignment, indemnification, or liability caps requires Legal review regardless of value.

Q: What is NovaTech's intellectual property policy?

A: All work product created by employees during the scope of their employment, using company resources or related to company business, is the intellectual property of NovaTech Solutions Inc. This is governed by the Employee IP Assignment Agreement signed at onboarding. Side projects using personal time and resources, unrelated to NovaTech's business, may be permissible with written approval from Legal — see the Moonlighting Policy in the Employee Handbook.

5.2 Data Privacy

Q: How does NovaTech comply with GDPR?

A: NovaTech appointed a Data Protection Officer (DPO) and established a GDPR compliance program in 2018. Key measures include: Privacy Impact Assessments (PIAs) for new products, Standard Contractual Clauses (SCCs) for cross-border data transfers, data subject rights request handling (access, deletion, portability) within 30 days, and a 72-hour breach notification process. GDPR training is mandatory for all employees handling EU personal data.

Q: What is the process if a customer requests data deletion?

A: Customer data deletion requests (Right to Erasure / Right to be Forgotten) must be routed to privacy@novatech.com within 24 hours of receipt. The Privacy team coordinates with Engineering to execute the deletion within 30 days. A deletion confirmation is sent to the customer. Certain data may be retained if required by law or for legitimate business purposes (e.g., billing records for 7 years). Deletion logs are maintained for audit purposes.

Q: Does NovaTech sell customer data to third parties?

A: No. NovaTech's Privacy Policy explicitly prohibits the sale of customer personal data to third parties. Customer data is used solely to deliver contracted services. Aggregate, anonymized analytics data may be used for product improvement purposes. NovaTech is CCPA-compliant and does not share personal data for cross-context behavioral advertising.

Section 6: Product & Engineering

6.1 Product Development

Q: What is NovaTech's product development methodology?

A: NovaTech follows a modified SAFe (Scaled Agile Framework) methodology. Development is organized into 8-week Program Increments (PIs), each consisting of four 2-week sprints. Product Managers own the

product roadmap, and Engineering Leads own technical execution. Cross-functional squads (PM, Engineers, Designer, QA, DevOps) work together in persistent teams. The PI Planning ceremony is held every 8 weeks, attended by all product and engineering staff.

Q: How are product features prioritized?

A: Feature prioritization uses a RICE scoring model (Reach, Impact, Confidence, Effort). Customer requests are tracked in Productboard, where customers can vote. Enterprise customer requests exceeding a defined ARR threshold receive automatic escalation to the CPO. Product roadmaps are published quarterly to customers via the NovaTech Customer Portal. A Public Product Roadmap (PPR) is maintained on the website showing high-level direction without specific release dates.

Q: What is the release cadence for NovaTech products?

A: NovaTech operates a continuous delivery model for SaaS products. NovaInsights and NovaCRM receive bi-weekly releases. NovaERP follows a monthly release train due to higher compliance requirements. NovaBridge has weekly patch releases. All releases go through Dev -> QA -> Staging -> Production pipeline with automated testing gates. Release notes are published in the NovaTech Help Center within 24 hours of production deployment.

6.2 Engineering Standards

Q: What are NovaTech's primary programming languages and technology stack?

A: Backend services are built primarily in Go and Python (FastAPI). Front-end applications use React (TypeScript). Mobile applications are built in React Native. Data pipelines use Apache Spark and dbt. Infrastructure is managed with Terraform on AWS (primary) and GCP (analytics workloads). Container orchestration uses Kubernetes (EKS). CI/CD is managed via GitHub Actions and ArgoCD. The internal developer platform is called NovaForge.

Q: What is the code review and deployment process?

A: All code changes require at least one peer review approval in GitHub. Merges to main require a passing CI pipeline (unit tests >80% coverage, linting, SAST scan via Snyk). Engineers do not self-merge to production; all production deployments are executed by the Release Engineering team via ArgoCD. Hotfixes follow an expedited process with single senior engineer approval and post-deployment review within 24 hours.

Q: How does NovaTech handle incidents and outages?

A: Incidents are classified P0-P4. P0/P1 (production outages) trigger the Incident Response Procedure: auto-page the on-call engineer via PagerDuty, incident commander declared, war room opened in Slack (#incident-response), customer communication drafted. Post-incident reviews (PIRs) are mandatory for all P0/P1 incidents within 5 business days. PIR reports are stored in Confluence and reviewed monthly by the Engineering Leadership team.

6.3 Security Engineering

Q: How does NovaTech manage vulnerability disclosures?

A: NovaTech has a public Responsible Disclosure Policy at novatech.com/security. External researchers may report vulnerabilities to security@novatech.com. The team acknowledges within 24 hours and aims to remediate critical vulnerabilities within 15 days. NovaTech participates in HackerOne's private bug bounty program for its core SaaS products, with rewards from \$200 to \$25,000 depending on severity.

Q: What application security practices does NovaTech follow?

A: NovaTech follows OWASP Top 10 and SANS Top 25 guidelines. All engineers complete mandatory AppSec training. SAST is integrated into CI/CD via Snyk. DAST (dynamic testing) is performed quarterly via Burp Suite Enterprise. Penetration tests are conducted annually by external firms (Mandiant and NCC Group on a rotating basis). Security champions are embedded in each squad.

Section 7: Sales & Marketing

7.1 Sales Process

Q: What is NovaTech's standard sales cycle?

A: NovaTech's sales process follows a 7-stage pipeline: (1) Prospect, (2) Qualified Lead, (3) Discovery, (4) Solution Design, (5) Proof of Concept / Demo, (6) Proposal & Negotiation, (7) Closed Won/Lost. Average enterprise sales cycle is 6-9 months. SMB (below \$50K ACV) cycles average 30-60 days. All opportunity data is tracked in NovaCRM (the company's own product, dogfooded internally).

Q: What is the discount authority matrix for sales reps?

A: Account Executives can offer up to 10% discount without approval. 11-20% requires Sales Manager approval. 21-30% requires VP of Sales. Over 30% requires Chief Revenue Officer approval and must include a business justification memo. Multi-year prepaid deals (3+ year) may receive an additional 5% strategic discount with VP approval. Discounts are tracked in NovaCRM and reviewed quarterly by Finance.

Q: How are sales territories assigned?

A: Territories are assigned annually based on a combination of geography, vertical industry, and named accounts. The Revenue Operations (RevOps) team manages territory carve-outs using data from ZoomInfo and internal pipeline history. Mid-year territory changes require VP Sales approval and are documented in NovaCRM. Named Account lists are jointly agreed upon between the AE and Sales Manager during annual territory planning in Q4.

7.2 Marketing

Q: What is NovaTech's brand voice and style guide?

A: NovaTech's brand voice is: Clear, Confident, Empowering, and Human. The brand avoids jargon-heavy language and favors outcome-focused messaging. Visual identity uses the primary brand color #1A237E (Navy Blue) and accent color #00BCD4 (Cyan). The approved typefaces are Inter (digital/web) and Freight Text (print). All marketing materials must follow the Brand Style Guide v3.1 available in the Marketing SharePoint.

Q: How do I request a marketing asset or campaign support?

A: Marketing requests are submitted via the Marketing Request Portal in Asana. Standard collateral requests (1-pagers, email templates, social posts) have a 5-day SLA. Campaign support requests should be submitted at least 4 weeks before the campaign launch date. For event support (trade shows, webinars), submit 8 weeks in advance. Creative briefs must include objective, target audience, key message, deadline, and budget.

Q: What is NovaTech's event strategy?

A: NovaTech participates in approximately 25 industry events per year, including Gartner Data & Analytics Summit, Dreamforce (partner booth), AWS re:Invent, and SaaStr Annual. The company also hosts its own annual user conference, NovaWorld, held each September in Austin (6,000+ attendees in 2024). Regional

NovaConnect events are held quarterly in major cities. Event ROI is tracked via booth scans and post-event pipeline attribution in NovaCRM.

Section 8: Customer Support

8.1 Support Tiers & SLAs

Q: What support tiers does NovaTech offer?

A: NovaTech offers three support tiers: (1) Standard — available to all customers, 9x5 email/portal support, P1 response in 4 hours; (2) Professional — 24x5 email/chat support, P1 response in 2 hours, dedicated CSM; (3) Enterprise — 24x7 phone/email/chat support, P1 response in 30 minutes, named Support Engineer, quarterly business reviews (QBRs). All tiers include access to the NovaTech Help Center, community forums, and product documentation.

Q: How are support tickets classified and what are the SLAs?

A: P1 (Critical — production system down): Enterprise 30 min, Professional 2 hrs, Standard 4 hrs. P2 (High — major feature unavailable): Enterprise 1 hr, Professional 4 hrs, Standard 8 hrs. P3 (Medium — partial degradation): Enterprise 4 hrs, Professional 8 hrs, Standard 24 hrs. P4 (Low — general inquiry): Enterprise 8 hrs, Professional 24 hrs, Standard 48 hrs. SLA breaches are tracked in Zendesk and reported to the VP of Customer Success monthly.

Q: What happens during a P1 customer incident?

A: Upon P1 ticket receipt, the support engineer immediately escalates to the on-call Engineering team via PagerDuty. A dedicated Slack channel is created with the customer's CSM, the support engineer, and relevant engineering staff. Status updates are provided every 30 minutes until resolution. A Root Cause Analysis (RCA) is delivered to the customer within 5 business days. P1s are reviewed in the weekly CX Leadership meeting.

8.2 Customer Success

Q: What does NovaTech's Customer Success team do?

A: Customer Success Managers (CSMs) are the primary post-sale relationship owners for Professional and Enterprise customers. CSM responsibilities include: onboarding coordination, adoption health monitoring (using NovaPulse, the internal customer health dashboard), quarterly business reviews (QBRs), renewal negotiations (with AE), and escalation management. The CSM-to-customer ratio is 1:15 for Enterprise and 1:40 for Professional tier.

Q: How does NovaTech measure customer health?

A: NovaTech uses a Customer Health Score (CHS) tracked in NovaPulse. The score is composed of: product usage (40%), support ticket volume and sentiment (20%), NPS score (20%), and contract engagement metrics (20%). Customers are color-coded Green (7-10), Yellow (4-6), or Red (0-3). Red accounts trigger an automatic Executive Sponsor assignment and a mandatory recovery plan within 10 business days.

Q: What is NovaTech's Net Promoter Score (NPS) methodology?

A: NPS surveys are sent to customer contacts 90 days post-onboarding and annually thereafter. Surveys are administered via Medallia. Responses are segmented by product line, vertical, and customer tier. The company-level NPS is reported to the Board quarterly. Team-level NPS results are shared with product and

support teams within 2 weeks of survey close. The company's FY2024 NPS is 54 (industry average: 38).

Section 9: Operations & Logistics

9.1 Facilities

Q: How do I book a conference room?

A: Conference rooms are bookable via Google Calendar (look for rooms prefixed with the office code, e.g., AUS-Maple, LON-Thames). Rooms can be booked up to 4 weeks in advance. Large rooms (10+ capacity) require approval from the Facilities team for bookings over 4 hours. For all-hands or town hall bookings, contact facilities@novatech.com at least 3 weeks prior. Auto-release applies to rooms not checked in within 10 minutes of the booking start time.

Q: What is the visitor management process?

A: Visitors must be registered in Envoy at least 24 hours before their visit by the NovaTech employee host. Visitors receive a pre-check-in email with security instructions. On arrival, they sign an NDA and receive a visitor badge. Visitors must be escorted at all times in restricted zones (engineering labs, server rooms). International visitors for M&A or partner due diligence activities require a Security clearance notification to the Legal team.

Q: How are office supplies and equipment ordered?

A: Standard office supplies are available in each office's supply room (replenished by Facilities weekly). For additional supplies, submit a request in ServiceNow under 'Facilities > Supply Request'. Budget owners can also order directly from the approved vendor catalog in Coupa for items up to \$500. Items over \$500 require manager approval in Coupa before ordering.

9.2 Business Continuity

Q: Does NovaTech have a business continuity plan?

A: Yes. NovaTech's Business Continuity Plan (BCP) is reviewed and tested annually. Key components include: a geographically distributed workforce enabling remote operations, RPO/RTO targets for critical systems (NovaCRM: RPO 1hr, RTO 4hr; NovaERP: RPO 4hr, RTO 8hr), data backup to multiple AWS regions with daily snapshots, and a Disaster Recovery Runbook maintained by the Engineering Operations team in Confluence.

Q: What is the process for declaring a disaster recovery event?

A: A DR event is declared by the CTO or VP Engineering in coordination with the CEO. The declaration triggers the DR Runbook, activates the Crisis Management Team (CMT), and initiates failover to the designated DR region. The CMT meets via Zoom every 2 hours during active DR events. External communications are managed by Corporate Comms. Customers are notified via the Status Page (status.novatech.com) within 30 minutes of declaration.

Section 10: Executive Leadership & Strategy

10.1 Leadership Team

Q: Who is on NovaTech's executive leadership team?

A: As of FY2024: CEO — Dr. Priya Nair; President & COO — Marcus Webb; CFO — Linda Johansson; CTO — Arjun Kapoor; CPO — Sofia Delgado; Chief Revenue Officer — David Kim; Chief People Officer — Amara Osei; Chief Legal Officer & General Counsel — James Thornton; Chief Marketing Officer — Elena Vasquez; VP of Engineering — Ravi Subramaniam. Board of Directors includes representatives from Sequoia Capital, Insight Partners, and four independent directors.

Q: What is NovaTech's strategic plan for FY2025?

A: NovaTech's FY2025 strategic priorities are: (1) Achieve \$500M ARR milestone (current: \$420M); (2) Expand NovaInsights with generative AI features (NovaMind product launch in Q2); (3) Enter APAC enterprise market with dedicated Singapore-based sales and support team; (4) Complete SOC 2 Type II re-certification and achieve ISO 27001 certification; (5) Improve gross margins from 71% to 74% through infrastructure efficiency programs.

Q: How does NovaTech communicate strategy to all employees?

A: The CEO holds a monthly All-Hands meeting (first Thursday of each month, 9am CT, streamed globally). A written strategy update is shared in the #company-news Slack channel and the NovaHub intranet within 24 hours. Quarterly earnings calls (for public shareholders) are followed by an internal Q&A session for employees. Department-level OKRs, aligned to company OKRs, are published in Lattice and reviewed each quarter.

Q: What is NovaTech's M&A; strategy?

A: NovaTech pursues bolt-on acquisitions in adjacent technology areas — primarily data integration, AI/ML tooling, and vertical-specific solutions. The Corp Dev team, led by the CFO, evaluates 20-30 targets annually. Target criteria: ARR between \$5M-\$50M, strong IP or technology, cultural alignment, and ability to integrate into the NovaForge platform within 18 months. Past acquisitions include DataMesh Inc. (2021, \$48M) and Clario Analytics (2023, \$95M).

10.2 Investor Relations

Q: How do analysts and investors get in touch with NovaTech's IR team?

A: Investor Relations inquiries can be directed to ir@novatech.com or the IR Hotline at +1-512-300-9100. The IR team is led by VP of Investor Relations, Claire Nakamura. Earnings calls are held within 4 weeks of quarter-end. The IR section of the website (investors.novatech.com) contains SEC filings, earnings transcripts, annual reports, and event presentations. Quiet periods begin 2 weeks before each earnings release.

Q: What is NovaTech's capital allocation philosophy?

A: NovaTech prioritizes reinvestment in product R&D (targeting 18-20% of revenue) and sales growth. The company does not pay a dividend. Share buybacks are executed opportunistically — the Board authorized a \$200M buyback program in Q1 2024, of which \$85M has been utilized as of Q3 2024. The company maintains a strong balance sheet with \$480M in cash and equivalents and no long-term debt as of Q3 2024.
